

All listings errors have been corrected in the digital versions of the listings.

Listing 3.1 - invalid html

Listing 6.1 - missing closing > bracket.

Listing 6.11 - missing function(){alert("Hello");}

Listing 6.18 - getElementById not getElementById.

Listing 9.11 - Parameters in wrong order should be  
if (strpos(\$previousPage, "search.php") != 0) {

Listing 10.4 - output of dates should be wrapped in a date\_format() function  
date\_format(\$this->birthDate, 'd M Y') and date\_format(\$this->deathDate, 'd M Y')

Caption for Listing 10.8 references Listing 10.8 instead of Figure 10.8  
Class implementation for Figure 10.11.

Caption for Listing 11.26: typo. Should read:  
Using transactions (mysqli extension)

Listing 11.29 Missing Closing ) bracket Should read:

\$pdo->setAttribute(PDO::ATTR\_ERRMODE, PDO::ERRMODE\_EXCEPTION);

Listing 11.29 Last three lines have bad HTML tags. Should read:

```
</table>
</body>
</html>
```

Listing 12.12 Missing code to select option. <-- Not an error technically, but a best practice enhancement.

```
<option value="0">Choose a country</option>
<option value="1" <?php if($countryValid->getValue()==1)echo "selected"; ?> >Canada</option>
<option value="2" <?php if($countryValid->getValue()==2)echo "selected"; ?> >France</option>
<option value="3" <?php if($countryValid->getValue()==3)echo "selected"; ?> >Germany</option>
<option value="4" <?php if($countryValid->getValue()==4)echo "selected"; ?> >United States</option>
```

Listing 13.4 - extra semicolon in serialize() function. should be

```
"works" => $this->artworks
)
```

```
);
```

Listing 13.10 Assignment should happen before the conditional. Should be

```
$countries = $memcache->get($cacheKey);
if (!isset($countries)) {
```

Listing 13.10 - missing a \$ before the crate variable. Should be

```
$countries = $cgate->getMostPopular();
```

Figure 15.1

Figure 15.2

Listing 15.2

Listing 15.3 - missing this. reference inside of random roll function. Should be  
return this.faces[randNum-1];

Listing 16.3. Extra ";" should be removed. Should read:

```
$saltSql = "SELECT UserID FROM Users WHERE Username=' $username' AND Password=MD5(' $password$salt')";
```

Listing 20.3 Missing \$ on link variable. Should be:

```
echo $link->getAttribute('href')." - ". $link->nodeValue. "<br>";
```

Listing 21.14. Three lines missing a semicolon and one line has an extra . Replacement lines are:

```
$headers=' From: System Administrator <donotreply@funwebdev.com>';
$headers. = "Content-Type: multipart/alternative";
$headers. = "--$bound" . $rn . "Content-Type: text/plain";
$headers. = $rn;
```
